

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I need and demand. What's the big deal here in allowing XM Satellite to provide local traffic reports anyway? I oppose HR 4026 bill !!!!! I live in the metro Atlanta area and we have several local TV & Radio stations that offer service currently. What logical reason could you possibly have for not allowing XM Satellite to offer the same type of programming?

If you feel the need to bully something or control something - then put your money and efforts toward curbing all the sex and violence on TV that our children are exposed to today. But to limit or stop traffic reports from being broadcast on XM Satellite is absolutely absurd!!!! Must I remind you that this is the United States of America not some third world country. I vote to "LET FREEDOM RING" and will not support ANY politician who tries to silence free speech!!!! We are not talking about allowing terrorist to take flight lessons here - we are asking to permit traffic reports on XM Satellite to be broadcast. GET REAL PLEASE!!!!
